RE: Suniland Park Multipurpose Field Renovation

The Parks and Recreation Department recommends that the Village Council approve moving forward with the renovation of the multipurpose field at Suniland Park. This project is ready to begin and represents a critical investment in maintaining the quality and safety of one of the Village's most heavily used athletic facilities. The department has secured a partnership with Ballpark Maintenance Inc. through a piggyback contract that was bid through Miami-Dade County (RTQ-02029), which provided for similar services of athletic field sod replacement at Ameila Earhart Park and allows us to proceed efficiently with the necessary renovations while ensuring competitive pricing and adherence to procurement standards.

The total project cost is \$294,692. Funding for the project has been planned, with capital improvement funds already allocated and further supported by Park Impact Fees. This project is part of a larger Suniland Park Improvement Project, which has been awarded a \$200,000 reimbursement grant through the Florida Recreation Development Assistance Program (FRDAP), which will significantly offset project costs.

Given the readiness of the project, the secured funding, and the importance of the field to the community's athletic programs, staff recommends that the Village Council move forward with the Suniland Park Multipurpose Field Renovation at this time.
