Department of Building and Planning

DATE: January 3, 2022

RE: Village of Pinecrest Code of Ordinances:
Chapter 30, Land Development Regulations

On December 14, 2021, the Village Council considered proposed amendments to the Village's Land Development Regulations at first reading. Following discussion of the proposed amendments, the Village Council directed staff to remove two (2) proposed amendments from the proposed ordinance that will be considered at second reading including an amendment that would have prohibited precast concrete traffic buttons in the public right-of-way, and an amendment to the definition of Floor Area Ratio that would have excluded the area of the open front porch entry above the first floor, the area of the interior stairwell above the first floor, and second story unenclosed balconies or terraces that are 500 square feet or less in area. The amended ordinance is included for the Village Council's consideration at second reading on January 11, 2022.

A summary of proposed amendments to Chapter 30, Land Development Regulations is provided as follows:

CHAPTER 30 – LAND DEVELOPMENT REGULATIONS

Article 4 – Zoning District Regulations

Div. 4.2 – Residential Districts

A proposed amendment to the height restrictions of the Estate Residential zoning districts, recommended by Councilmember Kraft would increase the proposed height of two-story, flat roof residences from a maximum of 27 feet to the top of the roof or parapet to 28 feet to the

top of the roof and 29.5 feet to the top of the parapet. The purpose of the proposed amendment is to allow for taller ceilings, consistent with current market trends.

Div. 4.5 – Commercial Districts

General retail sales and services within the BU-1 Restricted Commercial Development, BU-1A, General Business Development and BU-2, Special Business Development zoning districts currently require substantial redevelopment of commercial properties larger than 1.25 acres in area to include more than one permitted use. The purpose of this requirement was meant to moderate the scale of potential “big box” commercial uses that could potentially locate on the larger parcels. Councilmember Kraft has recommended that the requirement for more than one permitted use on the larger properties be removed.

Article 5. – Additional Regulations

Div. 5.25. - Tennis court/basketball court/outdoor recreational area lighting

The maximum permitted height of lights in the PR, Parks and Recreation and PS, Public Service zoning districts is currently limited to 18 feet in height. This height limitation is proposed to be changed to allow installation at a higher height determined by the Village Council to be sufficient for the intended application, consistent with the criteria for approval of a Conditional Use Permit.

Div. 5.32. – Vacation Rentals

(a) Definitions.

Correction of minor typographical errors is proposed.

ARTICLE 6. – Environmental Regulations

Div. 6.3 – Floodplain Management

Addition of a minor missing word is proposed to be added to Section 6.3.301-2 to improve and correct grammatical syntax.

ARTICLE 9. – Rules of Construction and Definitions

Div. 9.2. - Definition of terms

Established Grade – A definition of “Established Grade” has been added to define a new term added to the definition of building height.

Building Height - An amendment to the reference point from which building height is measured has been recommended by Councilmember Kraft. Currently, building height is measured from the average elevation of the adjoining crown of road. This works well for the majority of lots in the Village of Pinecrest. However, there are instances where the grade of the building lot is substantially higher than the adjoining crown of road, such as certain lots adjacent to Rolling Road. Within the non-flood hazard areas, in instances where the established grade is more than 12 inches above the highest elevation of the adjoining crown of road, building height is proposed to be measured from 8 inches above the established grade, and in instances where the established grade is more than 12 inches below the highest elevation of the adjoining crown of road, building height is proposed to be measured from the elevation of the highest crown of road. In other instances, measurement from the highest crown of the adjoining road instead of average crown of the road is proposed.

31 WHEREAS, the Village Council has identified amendments to the Village’s Code
32 of Ordinances and Land Development Regulations necessary for implementation of the
33 goals, objectives, and policies of the Village’s Comprehensive Development Master Plan,
34 and Pinecrest Parkway (US 1) Vision Plan; and

35 WHEREAS, the Village Charter empowers the Village Council to adopt, amend or
36 repeal its ordinances and resolutions as may be required for the benefit of the residents of
37 the Village of Pinecrest; and

38 WHEREAS, the Local Planning Agency, held a duly advertised public hearing on
39 December 14, 2021; and

40 WHEREAS, after reviewing the Local Planning Agency’s recommendations, the
41 recommendations of Village staff, and comments from the public, the Village Council finds
42 that the proposed amendments to its Code of Ordinances and Land Development
43 Regulations are in compliance and consistent with Florida law, its adopted
44 Comprehensive Development Master Plan, and the Pinecrest Parkway (US 1) Vision Plan;
45 and

46 WHEREAS, the Village Council further finds it to be in the best interest of the public
47 health, safety and welfare of the citizens to adopt this ordinance amending the Village’s
48 Code of Ordinances and Land Development Regulations;

Div. 4.3. - Commercial districts.

(d) *Restricted business development (BU-1) district.*

1. *Intent.* Businesses within the BU-1 district are located within the US 1 linear corridor and are intended to service neighborhood residential markets within the immediate vicinity, as opposed to village-wide or regional markets. Such businesses are also intended to cater to specialized markets with customized market demands. The BU-1 district is not intended to accommodate large-scale retail sales and trade activities generally serving a citywide or regional market. Such stores generally require a larger floor area, carry a relatively larger inventory, and require a substantially greater off-street parking area. For instance, the BU-1 district is not intended to accommodate the following: large scale discount stores or supermarkets; department stores; mini-storage, outside storage, wholesale or warehousing activities; sales, service or repair of motor vehicles, machine equipment or accessory parts, including tire and battery shops; automotive services centers; and drive through facilities.

2. *Uses permitted.* The following uses shall be allowed within a BU-1 district following village council approval of a site plan:
 - a. Bakeries, retail only;
 - b. Business and professional offices;
 - c. Dry cleaning (with cleaning off-premises);
 - d. Financial institutions without drive-through facilities;
 - e. Government facilities following a public hearing conducted by the village council;
 - f. General retail sales and services ~~provided any retail sales and service establishment on a lot or parcel that is 1.25 acres (54,450 square feet) or larger shall contain a mixture of permitted uses;~~
 - g. Medical services;
 - h. Personal services;
 - i. Plant and garden sales and services;
 - j. Restaurants without drive-through facilities;
 - k. Veterinary medical services, without outside kennels; and
 - l. Retail sales of used merchandise, provided establishments offering such merchandise contain not more than 4,000 square feet of gross floor area; and
 - m. Other similar uses as determined by the village council.
